EDWARDS

Certified Excellence in Intelligent FireAlarm Solutions

Certified Distributor in KSA.

With over 150 years of leadership in commercial and industrial life safety (founded in 1872), Edwards delivers cutting-edge fire detection and alarm systems trusted worldwide.

We are certified to supply, install, and commission these advanced solutions including intelligent control panels, detectors, and fully integrated life safety systems in full compliance with international standards. From economical conventional panels to innovative safety platforms, Edwards continues to set the benchmark for safer spaces everywhere.

EDWARDS

Edwards Product Line

- Key Offerings

High → Mid → Small → Zone

EST4 Series (High End)
- Flagship Platform
- - IPv6 Networking
- Signature
- Voice EVAC
- FFT Communications
- Network / Enterprise
- Fireworks

EST3X Series (Mid-Range)
- Signature
- Voice EVAC
- Small Network
- Network to EST3

iO Series
- Signature
- Small Analog
- 64 to 1000 pt

FireShield
- Small Platform
- 5 or 10 Conventional Zones
- Hard-Wired

Signature Addressable Devices including Integrated CO Detection

GREEN FLASH
ENGINEERING & CONTRACTING

Experience coordinated incident management with the powerful pairing of FireWorks® and HyperSpike® speakers.
This highly effective combination provides the right information to the right people at the right time, quickly and efficiently.

Whether you choose Edwards Connected Safety with an EST4 intelligent fire & life safety system or ESTMobile™ combined with an iO Series intelligent life safety panel, Edwards can provide custom, connected solutions to future-proof your facilities.

EDWARDS

Edwards products are carefully designed to be sleek, minimalistic, and intuitive for the end-user.
From interchangeable skins on our slim-line smoke detectors to full-color interfaces on our intelligent life safety panels, our products and components are developed with the user in mind.

Exceed the standard with notification appliances from Edwards. We've paired the utmost in technology with looks and features ideal for a wide range of facilities to bring on-demand notification to every application.
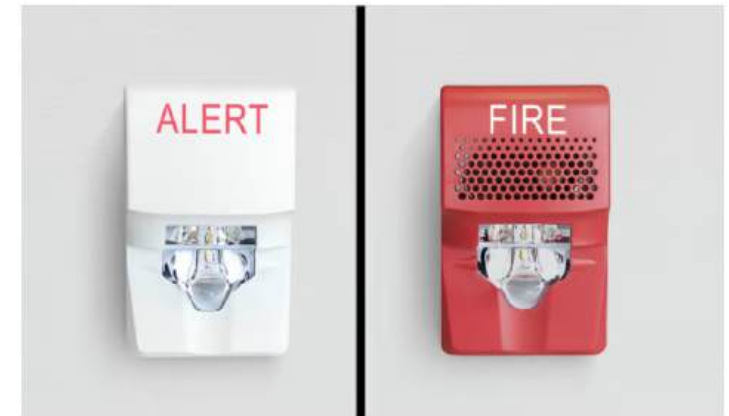

Aspiration Smoke Detection

- 30 years experience in designing ASD systems•

  Hundreds of thousands of installed devices

- Patented technology:

  - ClassiFire algorithm

  - Modular smoke detection system

- Complete ASD portfolio built with users in mind

- Accessory portfolio to cover full range of applications

- Highly experienced support

ModuLaser®

Aspiration Smoke Detection

Large Volume Buildings where there may be challenges due to air stratification or the height of the space

- Atria
- Large Volume Buildings
- Power Generation

Harsh Environments where dust and icing are prevalent

- Manufacturing facilities; recycling plants,
- Cold rooms

Covert Detection where building aesthetics needs to be preserved

- Museums
- Churches

Difficult To Access Areas for maintenance and repair

- Correctional Facilities
- Clean Rooms
- Attics

Areas Where Smoke Is Difficult To Detect

- Buildings with high airflow - Datacentres
